BUG LIST

My life would be better if...

- i could lower my monthly bills with less effort
- my laundry was consistently completed on time
- my trash can didn't fill up so fast
- i could control my dog's shedding more
- i had a better way to organize the storage in my apartment
- i could get my packages delivered straight to my apartment

My family/friends' life would be better if...

- my mother could pick up ALL of her prescriptions at the same time every month
- they could easily access mental health resources
- they could schedule doctors appointments online

My community would be better if...

- there was easier access to recycling
- Children had a safer place to play in the neighborhood
- parking zones were clearer and enforced
- there was better access to dumpsters for those that park on the street
- the street was better lit at night
